What will happen if my Summary Care Record is permanently deleted?

- This data will be completely removed and cannot be reinstated.
- Summary Care Record data will NOT be available to any clinician providing care for you or who is asked to investigate the quality of care you have been given.
- If a Summary Care Record is needed in the future a new record would have to be created.

What happens next?

This information is sent to the NHS Connecting for Health as part of the process to investigate if it is safe for your Summary Care Record data to be deleted. You may be contacted for further information if this is required. Once this process has been completed you will be notified of the outcome.
